CALL FOR PAPERS:
Conference on Remote Work

We will run a two-day conference on remote work, including hybrid arrangements that involve a mix of onsite and offsite work. The conference is open to papers on remote-work measurement, the drivers of remote work, managing remote and hybrid workforces, performance outcomes with remote work, and the implications of remote work for workers, organizations, and society.

The conference will run from 1:00pm on Wednesday October 9th to 12:00pm on Friday October 11th, 2024 at Stanford University. To encourage broad attendance and discussion, each paper session will run for 35 minutes with generous breaks and dinners.

Accommodation and food will be covered, and grants of up to $1,000 are available for one participant per paper. Please indicate the need for travel funding at the point of submission.

Submissions are due by June 15th 11:59 p.m. EST.

Accepted papers will be notified by July 15th, 2023.

Submissions: Please use the form https://forms.gle/1X22U224hEgCup3F6. Preference will be given to completed papers, but extended abstracts will also be considered.

Scientific committee:
Jose Maria Barrero (ITAM)
Nick Bloom (Stanford University)
Raj Choudhury (Harvard Business School)
Steve Davis (Hoover Institution and SIEPR)
Natalia Emanuel (New York Federal Reserve Bank)
Emma Harrington (University of Virginia)
